There were validation issues with the following resources. They were not able to be checked

This is a validation report using pySHACL to process the provided data graphs against the noted shape graph. A heat map of the results is seen below to provide a quick over view. However, the details are easier to leverage from the generated CSV document that will come with this report.

For more information about validation please visit the [project documentation](#). Details of the errors reported can be found in the [shape file documentation](#) page.

Details

Details of the detected violations and the associated reference node are found in the CSV that accompany this report: [edmo_oihsearch_table_05-21-2023-16-09-19.csv](#)
